

Biography

Garrett J. Sullivan – Executive Director – NEISD Construction Management and Engineering Department (From Video)

Sullivan is seen at the NEISD Board Meeting discussing the approval of the 2015 Bond North East Agriscience Phase 2 Facility Addition Project Schematic Design.

Jared Rode – Agriscience Teacher (Quotes in News Release)

Rode is one of seven agriscience teachers at the North East Agriscience Magnet Program (AMP) at James Madison High School in San Antonio. He serves as an advisor for the James Madison FFA chapter. Rode joined the AMP staff in 2014. Rode has his associates degree in Diesel Equipment Technology from TSTC. He received his bachelor's of applied science in agricultural science from Texas A&M University College Station.

Rode teaches all the agricultural mechanics classes at the AMP. He also coaches several CDEs including Tractor Tech, Home site and Ag Mechanics and Technology. He believes the new building will allow him to better prepare his students for entry into the welding and mechanics industries after high school.
